The prisoner was given dinner by Mr. Jones at his home, after which the officer and his prisoner started to take the train for London. All went O. K. till by a sudden dash, Morgan dodged and ran and Mr. Jones fired after the running man, but with no results, only an increasing burst of speed. Dodging into the cemetery, where he easily found shelter and a hiding place behind the stonework and evergreens Morgan had no trouble in making good his escape.

HOG WALLOW NEWS

From Hogwallow, Kentucky:—Atlas Peck has received a new alumina from away off. The product, though, is so fine he has to get right down on the ground to read it.

A public singing will be held at the Dog Hill church Sunday night to raise money with which to build a jail at Bounding Billows. As we are all liable to get into jail some time or another during the course of human events, this worthy cause should be patronized liberally.

Business in this section is getting better since the heavy rains and both our creeks are running right and day.

Columbus Alsop set one of his geese a few days ago on thirteen eggs, but she grew impatient and abandoned the nest until Columbus removed one of the eggs. It is discouraging to note that this late day of enlightenment we still have to tolerate superstition.

In his lecture on "Dogs" at Rayward Knab Monday night our worthy friend, Prof. Sap Spradlin, referred to several of our citizens in a clearly understandable terms, but on one took offense, as they were merely used as illustrations.

Fit Smith sleeps a good deal in company with his hat on, but nothing will be said to him about it, as he is liberal when the hat is passed around.

A caddis has been stood against the postoffice, so that if anybody is on the roof when a fire breaks out they can come down.

Insects That Use Rubber.

When Para trees are tapped, after the gum has run into receptacles and (offered), a species of large black ant is accustomed to cut out pieces of the rubber and carry them away. Bees also find uses for India rubber, and some species in South Africa actually cut the bark of trees that produce resinous substances in order to cause a flow of the sap. The gum is employed by the bees as a ready-made wax for their nests.

Judge O'Rear's "explanation" of how Bradley "bluffed" the traitorous democrat's legislators into voting for him for Senator is really laughable. If the judge is glib enough to believe that kind of stuff handed him by Bradley, he isn't smart enough to be a governor by a long shot.

John Melton of the Murray Gazette, who has spent the past several years, circulating all the scurrilous lies he could think of about former

governor Beckham now says that he will not support McCrory, because he thinks Beckham had a hand in writing the democratic platform. The nearer the democratic party is rid of such cattle as Melton the better off it will be.

1,240 Head---Mules, Broodmares, and Colts, Cattle and Sheep---1,240 Head

50 MULES, 2 TO 5 YEARS OLD.

All mares except seven: 20 well matched pairs, including several teams of as good show mules as our J. H. Baughman ever showed. All except a few of the youngest are well broken. This will be a rare opportunity to get an extra team of mules, something to be proud of. And why not have the best? They are the cheapest in the long run. We look for these mules to sell cheap, quality considered.

40 DRAFT TYPE BROODMARES
20 COLTS, HORSES AND MULES
20 COLORADO AND MONTANA BRANDED MARES.

These brood mares are the right kind for mules, being the big boned Western mares weighing from 1,100 to 1,600 pounds. Twenty of the largest and best are bred to the great mule jack, Samson, which is the sire of more show mules than any jack in the state from his first colts to the present, or for four years in succession. All the other brood mares were bred to a draft horse. Remember, we have all kinds of mares: big, little, old and young, broke and unbroke, and plenty of them.

50 FORWARD WEANLING CALVES.
30 GOOD GRADE STOCK HEIFERS.
10 HIGH GRADE BULLS 1 to 2 YEARS OLD.

100 HIGH GRADE FEEDERS WEIGHT 1,000 to 1,100 lbs

These calves are all home raised and bought in Lincoln, Garrard and Boyle counties and nothing but the very best quality and all good colors were especially bought for this sale. These yearlings and feeders are the best that could be purchased. We have been since April 1st getting these cattle together for this sale. This is a splendid chance to get good cattle worth the money, as we have these cattle bought right.

600 Kentucky bred Stock Ewes.

We have 600 head of the very best Wayne county stock ewes from 1 to 5 years old; nothing over 5 years old and mostly from 2 to 4 years old. These sheep are an extra large bone sheep; most all of them black faces and they are fresh from the mountains this season. We used a great deal of pains in getting these sheep up, and if you want something extra, don't fail to be here on day of sale.

20 Oxford Shropshire & Southdown Bucks.

We also have 20 head of extra fine Oxford Shropshire Southdown bucks from forward lambs to 4 years old. These bucks were bought from the Henry Baughman flock at Hustonville, Ky., and the Granville Cecil flock, of Danville, Ky. Some of the latter bucks were imported here from Canada.
